Carson District Ranger Signs Jacks Valley Trail Project Decision

Carson, NV., Nov. 22, 2021 – The Humboldt-Toiyabe National Forest’s Carson Ranger District has issued the final decision for the Clear Creek Extension and Jacks Valley Loop Trails project. The proposed action includes building approximately 8.1 miles of new non-motorized single-track trail, decommissioning around 4.65 miles of user-created trails, and installing trail signage.

“The Jacks Valley Trail Project includes building two trails that will expand opportunities for mountain biking, hiking, and horseback riding in the vicinity of the Jacks Valley area, south of Carson City, Nevada,” said Carson District Ranger Matt Zumstein. “This is just the first step building onto a trail system that will continue to improve community connectivity, reduce barriers to access, and support environmental and social sustainability of recreation for the Jacks Valley area.”

One of the two trails is an extension of the existing Clear Creek Trail that begins at Jacks Valley Road. The other trail is an optional loop off the Clear Creek Trail and will be called the Jacks Valley Loop.

“We are excited that our partner, Carson Valley Trails Association, will be able to start construction on these two trails sometime this winter or early spring,” said Zumstein. “Of course, it is all dependent on the weather.”

The final Decision Memo can be downloaded at <https://www.fs.usda.gov/project/?project=60364>. For more information on this project please contact Garret Nuzzo-Jones, Recreation Management Specialist, at garret.nuzzo-jones@usda.gov or 540-204-7951.
